Forecast for Wednesday 20 Jul 2022

Weather: Becoming quite cloudy with a chance of light showers or occasional drizzle during the early hours. Cloud slowly breaking during the morning to give some bright or sunny intervals but a chance of a few sharp showers breaking out. Increasingly dry and bright later in the afternoon. A mostly fine evening. Feeling much less hot and fresher in the breeze.

Chance of cloud-free hill tops above 600m: 40% becoming 60%.

Low cloud and visibility: Areas of cloud above 500m developing during the early hours, this lifting to around 600-700m by midday. Periods continuing through the afternoon but mostly lifting above summits by late afternoon. Visibility will generally be very good but locally very poor in cloud.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling a good deal less hot than on Tuesday and rather cool in the breeze on the summits. If you are heading to the summits you will need to pack extra layers.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Tue 19 Jul 2022	0mm	0mm	0mm

Forecast for Thursday 21 Jul 2022

Weather: A generally dry day is expected and although there will be lengthy cloudy periods, sunny spells are also likely, especially during the afternoon.

Maximum wind: Northwest 10-15 mph

Chance of cloud-free hill tops above 600m: 70%

Low cloud and visibility: Periods of cloud above 700-800m at first, lifting and clearing. Visibility will generally be very good but locally very poor in cloud.

Temperature: **Valleys:** Plus 9 Celsius rising to plus 22 Celsius
At 600m: Plus 10 Celsius rising to plus 15 Celsius
Freezing level: Above the summits.
